Session 2025-2026
Report
One Day Workshop on
AI and 14.0 Tools for Innovators and Entrepreneurs**

Ref. No.: IIC/GNIET/2025-26/

Date: 12/11/2025

Session Details:

Title of the Session: One Day Workshop on AI and 14.0 Tools for Innovators and Entrepreneurs

Date: November 12, 2025

Duration: 3 hours (1:00 PM - 4:00 PM)

Activity Category: IIC Calendar/MIC Driven/Self Driven/Celebration

Theme: Leveraging Artificial Intelligence for Innovation and Entrepreneurial Growth

Expert/Speaker Details:

Name: Dr. Supriya Thombre

Designation: Assistant Professor

Organization: YCCE, Nagpur

Brief about Expert/Speaker:

Dr. Supriya Thombre is an experienced professional specializing in Artificial Intelligence (AI) and its applications in business innovation. As a trainer at YCC College of Engineering and Management, Nagpur, Dr. Thombre has been instrumental in educating entrepreneurs and professionals about the potential of AI in driving business growth and innovation. She has vast experience in integrating AI technologies with entrepreneurial strategies, helping innovators harness these tools for practical applications in their startups and businesses.

Her expertise in 14.0 tools for business management and innovation has made her a sought-after speaker for workshops aimed at enhancing the technological capabilities of innovators and entrepreneurs..

Objective:

The primary objective of the guest lecture was to introduce participants to the transformative potential of Artificial Intelligence (AI) and the latest 14.0 tools designed specifically for innovators and entrepreneurs. The session aimed to enhance participants' understanding of how AI can drive business innovation, streamline operations, and improve decision-making. Through hands-on experiences and expert insights, the lecture sought to empower students and entrepreneurs with the practical knowledge and skills needed to integrate AI tools into their entrepreneurial ventures, fostering innovation and growth.

Outcome of the Activity:

The workshop successfully met its objectives of familiarizing participants with AI technologies and the latest 14.0 tools designed for innovators and entrepreneurs. Key outcomes include:

- Enhanced Understanding of AI: Participants gained valuable insights into AI, its applications in entrepreneurship, and how it can streamline business operations.
- Hands-on Experience with Tools: The practical sessions allowed attendees to apply AI techniques and 14.0 tools directly in real-world scenarios.
- Networking and Collaboration: The event encouraged collaboration among students, staff, and industry experts, creating opportunities for future partnerships and mentorships.

Key Highlights:

- Introduction to AI and its Applications: Dr. Supriya Thombre provided a comprehensive overview of AI, focusing on its impact on entrepreneurship and innovation.
- 14.0 Tools for Innovation: The session covered various tools designed to optimize business operations, data analytics, customer relationships, and decision-making processes.
- Hands-on Sessions: Participants engaged in practical exercises using AI tools to solve business challenges, enhancing their understanding of the applications.
- Interactive Panel Discussion: A panel discussion involving Dr. Thombre and industry experts discussed the challenges and opportunities of using AI in startups and growing businesses.
- Q&A Session: Participants interacted with Dr. Thombre, asking questions about the real-world applications of AI in their ventures.
